

Upcoming Events

Despite the team's best efforts, we are forced to postpone our next competition date. Without dwelling on what could have been, the team has now redirected its focus to further research and development of our 3rd generation car in order to capitalize on the extra time we now have. In accordance with federal, state, and university policies all events scheduled this summer have been cancelled, namely the RCCR-SoWeLa SCCA Autocross event. Now, more than ever, we rely on the help and support that our sponsors and the ULL faculty provide. We will continue to see each change of schedule as an opportunity to improve the structure and integrity of our team.
